General tutorial logistics

Presentation → demonstrations → worksheet

Worksheets will be posted to the course website:

<https://educe-ubc.github.io/MICB405/index.html>

- **Tutorials Website** link at the bottom of Canvas home page & in Modules

Today's tutorial

I will pass out your server credentials on slips of paper – please keep these safe

Check the Setup page for your operating system, then go through the worksheet

If you connected to the server and completed the worksheet, you may leave the tutorial

Please let me know if you want to change tutorial sections

Questions?

Terminal troubleshooting will start after
